

In order for Politeknik Brunei (PB) to be effective in its vision and mission, we need graduates to let us know about their progress or current status, including participation in further study, full-time or part-time employment, or whether they are seeking for employment or not.

By taking less than 10 minutes to answer the questions below your input will contribute to the knowledge needed to encourage future students to pursue Diploma Level 5 at PB.

Graduate feedback from this survey will provide valuable information about the quality of education and training and hence the success of PB graduates in the labour market. This, in turn, will be used for programme and labour market review and planning.

We would like to ensure you that individual responses to all questions will be kept strictly **confidential**; only aggregate data will be shared. Thank you very much for your kind cooperation.
